Summary

Software developer with 5+ years at Charles Schwab in Advisor Services Technology team, specializing in Java backend development for ASTRAL (Advisor Service Trade Allocation) platform. Expert in building/maintaining trade validation services processing 3B+ queue entries daily. Proven track record leading CI/CD migrations and delivering production-scale fintech solutions.

Work Experience

Specialist - Software Development & Engineering
Charles Schwab | Phoenix, AZ | Sep 2022 - Present

- Contributed to a successful dial-up of the platform by modernizing and optimizing API endpoints, scaling and enabling millions of accounts and able to handle billions of dollars in daily transactions
- Demonstrated strong collaboration and knowledge sharing with senior engineers, providing documentation, and contributing to code reviews
- Harnessed GitHub Copilot and created custom agent markdown files to increase development productivity and efficiency
- Enhanced Splunk logging to reduce the daily log volume by over 200% achieving quota compliance
- Upgraded multiple Spring Boot Applications to resolve security vulnerabilities, compatibility issues, and refactored deprecated code
- Successfully migrated all team code repositories to GitHub ensuring continuity

Associate Software Developer
Charles Schwab | Phoenix, AZ | Jan 2021 - Sep 2022

- Designed and implemented a caching artifact that improved the performance and reusability across multiple applications
- Delivered production-critical microservices backend endpoints and platform enhancements
- Supported infrastructure, automation, and operations, including Control-M scheduler, Bamboo, AppDynamics updates, and DNS/ASG setup

Ruby on Rails Developer Intern
Thinq.TV | Scottsdale, AZ | Jun 2020 - Aug - 2020

- Ensured unit testing to deliver optimal browser functionality
- Collaborated with UX/UI Designers and completed full redesigns of the existing website to improve navigation and enhance visuals
- Migrated the website to the current version of Bootstrap to reduce CSS and to have better loading performance

Education

Bachelor of Science | Computer Science **Aug 2016 - May 2020**
Arizona State University | Tempe, AZ

- Graduated with 3.77 GPA

- Dean's List May 2016 – Spring 2019
